PRESENTATION

The Interaction 2050 Association was founded in 2008 in order to identify and capitalize on funding sources from the country and abroad for the implementation of programs, promotion and support of partnership based on complementarity between regions and institutions in Europe.

The main objectives of the association:
- promoting socio-economic development in the region while respecting the principles of sustainable development, while protecting the environment and biodiversity;
- supporting the efforts of the local community to improve their environmental, economic and cultural possibilities.
- development, organization, financing and implementation of programs that are necessary to preserve the moral, economic and social values of society, to protect, feed and develop them and to promote the development of agriculture and industry, with special attention to environmental protection;
- combating environmental damage, protecting flora and fauna.

The headquarters of the Association: Satu Mare, 31 B.P. Hasdeu Street.
Contact persons: Uray Károly Gyòrgy, president tel +36.309.451.710
Valean Alexandru, vice president tel +40.721.346.490

In order to achieve the proposed goal, the Interaction 2050 Association participated in the elaboration and implementation of a significant number of cross-border projects for the development of ecological infrastructure and nature protection in the Romanian-Hungarian cross-border area, as follows: HURO / 0802 / 054_AF INFORMATION ECO-HOUSE - „Creation of Nature and Environment protection Information Center ”, HURO/ 0901032 / 1.2.3 ECOINFO - “Information as an economical power ”HURO / 1101/027 / 1.3.1 ECOSUNHOME - “Home of youth, nature and affection ”HURO/0802/059_AF SOMN - "Common roads for the disabled", ROHU-62 JOINTGREENCORR - "Borderless Green Corridor", "Green Somes river", "Bicycle2020", "CoopSomes".

The Interaction 2050 Association has professional experience in the field of water management and environmental issues.
